

EVT*-Pro X

Electronic Valve Tester

product fact sheet

Overview

EVT-Pro X is a fully automatic electronic valve tester that is CSA & ATEX certified / Intrinsic Safe. It offers a fully automatic test experience.

Aside from being CSA/ATEX certified, the EVT-Pro X has a fully integrated pump and electronic package built into the case. There is no manual pumping.

** Not shown are Nitrogen (N₂) bottles needed to comply with ATEX requirements.*

- Rugged industrial computer
- Portable
- Easy setup
- Intuitive software
- Exceptional battery life
- Acoustic signal transmitter
- Customizable reports
- Downloadable to ValvKeep* valve maintenance software
- Multiple language support

EVT* -Pro X

Electronic Valve Tester

product fact sheet

Key Features

- Ability to test gas, liquid and air/steam
- Tests all brands of pressure relief valves
- Pre-Loaded data for most valves
- Multiple force transducer (1kN, 10kN, 20kN, 50kN) with matching hydraulic cylinder reduces accidental overloading
- User-friendly, custom OEM software
- Easy and fast interface to ValvKeep software supporting data import and export
- Aircraft alloy fixture—rugged yet lightweight
- Easy-to-read reports; customize with logo
- Powerful graphics offer quick interpretation of test data
- Custom color-coded cables and connectors for rapid and easy hookup
- Unique acoustic sensor offers an additional indication of set pressure
- Exceptional battery life—two batteries with 15-minute recharge
- Finger print program offers linear regression capability similar to EVT 3 for testing unknown valves
- Emergency shut-down / force-closing feature
- TSA-approved air cargo carrying case

Industrial Computer

Fully rugged computer notebook offers exceptional performance to service tough environments including drops, water, heat, dust, vibrations and shock regimens.

- Intel® Core2 Duo Processor, ULV 1.4 GHz, 800 MHz FSB, 3 MB L2 cache
- 10.4" XGA or 12.1" WXGA TFT touch display
- Sunlight-readable display; touchscreen
- 2 GB high speed DDR2 RAM (up to 4 GB DDR)
- 160 GB removable hard drive (SATA)
- Wireless LAN, 2 x PCMCIA Type II, 2 x USB2.0, 10/100/1000 Base-T LAN, RS-232, modem, SD card slot
- Bluetooth
- Integrated 1.3M camera and/or GPS; wireless-capable
- Glove-friendly, multi-touch LCD
- MIL-STD 810G certified and IP65 compliance
- Full magnesium alloy case with hand strap
- Shock-protected removable HDD
